PEDIATRIC NEURORADIOLOGY FELLOWSHIP

Children’s Hospital of Philadelphia (CHOP) Neuroradiology fellowship program is inviting applications for an unexpected opening for a Pediatric Neuroradiology fellowship position starting July 2022/or an off cycle start. This is a 1-year training program. This program is available to those seeking a career in adult or pediatric neuroradiology, or pediatric radiology. It may be taken in conjunction with one year of training in either subspecialty area.

The program provides centralized service to a rapidly expanding major referral 520+ bed academic pediatric hospital and multiple outpatient imaging centers. The division of pediatric neuroradiology utilizes 11 MRI systems, including eight 3 Tesla MRI systems. There is a dedicated simultaneous 3T PET/MR system. There are three CT systems, a SPECT-CT, and a PET-CT. The equipment is state-of-the-art and advanced imaging techniques are routinely employed in the department. The department has, for clinical and research purposes, two adult MEG and one infant MEG system. All imaging is on a PACS system and there is thin-client 3D and advanced imaging workstation access throughout the department.

The neuroradiology division led by Erin Simon Schwartz M.D., FACR, supports large clinical programs in neonatology, pediatrics, neurology, neurosurgery, orthopedics, ENT, ophthalmology, genetics, emergency care, as well as the largest fetal surgery center in the world. Active subspecialty programs include the Pediatric Regional Epilepsy Program, pediatric stroke and cerebrovascular disease, neuromuscular disease, leukodystrophy center, fetal imaging and MRI, neurooncology and proton therapy center, as well as technical developments in functional MRI, spectroscopy, perfusion, and diffusion imaging.

There are three fellowship spots per year. There are didactic teaching lectures, case-based sessions, and patient management centered conferences throughout the week. Commensurate academic and conference time is provided. Benefits and salary are highly competitive.

The Children’s Hospital of Philadelphia is the first and one of the largest pediatric hospitals in the United States and has been consistently ranked as one of the top hospitals in the country. CHOP is an equal opportunity employer.

Interested candidates should send CV and two letters of recommendation to:

Karuna Shekdar, MD
Neuroradiology Fellowship Director
shekdar@chop.edu

or

Gabriella Dunn
Fellowship Program Coordinator
