

## **Job Posting: Neuroradiologist**

**Position Title:** Neuroradiologist (clinician or clinician scientist track)

**Institution:** [St. Jude Children's Research Hospital](#)

**Location:** Memphis, TN

### **About the Position:**

[St. Jude Children's Research Hospital](#), a globally recognized leader in clinical and basic science research, specializing in pediatric catastrophic diseases with a primary focus on oncology, is seeking a highly motivated and skilled Academic Neuroradiologist to join our esteemed team. This is an exceptional opportunity to work in a close-knit, collaborative, and innovative environment that emphasizes both professional excellence and a healthy work-life balance.

### **Position Highlights:**

- **World-Class Institution:** Work at one of the most respected institutions in the world, known for its cutting-edge research, state-of-the-art facilities, and global impact in medicine.
- **Extremely low Clinical Load:** Enjoy a focused academic role with minimal clinical responsibilities (approximately 15 cases to read a day), allowing you to dedicate more time to research, education, and academic pursuits.
- **Unbeatable Work-Life Balance:** We prioritize the well-being of our faculty and provide flexibility to ensure a healthy balance between personal and professional life.
- **Limited After-Hours or Call Responsibilities:** With no emergency room, all cases are outpatient-based. After-hours and weekend scans, mainly for therapy-related complications or acute events, are rare. A dedicated teleradiology company handles after-hours reads and call duties, allowing you to fully enjoy your evenings, weekends, and personal time. You will only be required to serve as a back-up for teleradiology as part of the faculty rotation.
- **Outstanding Benefits:** We offer a highly competitive compensation package that includes very generous health benefits, dual retirement plans, professional development support, tuition assistance for children, and additional wellness programs.
- **Endless Academic Opportunities:** Engage in groundbreaking research and collaborate with leading experts across disciplines. Opportunities to mentor, teach, and inspire the next generation of medical professionals are abundant.

### **Qualifications:**

- MD or equivalent degree.
- Fellowship training in Neuroradiology.
- ABR certified or eligible for Neuroradiology specialty
- Strong academic background with a commitment to research and education.

- Excellent communication and interpersonal skills, with a passion for collaboration and innovation.

**Responsibilities:**

- Participate in neuroradiology clinical services, with a limited clinical load that allows for significant academic and research focus.
- Engage in academic and research activities, including mentoring students, residents, and fellows.
- Collaborate with multidisciplinary teams across the institution and beyond to drive impactful research initiatives.
- Contribute to teaching in both undergraduate and postgraduate medical education programs.

**Why Join Us?**

At [St. Jude Children's Research Hospital](https://www.stjude.org), you'll have the chance to thrive in a supportive, intellectually stimulating environment that values your career development and personal well-being. You'll work alongside world-class faculty and have access to cutting-edge resources to advance your academic career while maintaining an exceptional quality of life.

**Application Process:**

Interested candidates should apply **directly online at [stjude.org/jobs](https://stjude.org/jobs)**.
