

8TH ANNUAL SCIENTIFIC MEETING

The American Society of Pediatric Neuroradiology

JW MARRIOTT TAMPA WATER STREET
TAMPA, FLORIDA

Exhibitor & Sponsor Prospectus

Dear Colleagues,

The American Society of Pediatric Neuroradiology is excited to invite you to participate in our 8th Annual Scientific Meeting! The extravaganza will be held January 16-18, 2026 (MLK weekend) at the luxurious and revitalizing JW Marriott Tampa Water Street.

ASPNR26 will be an engaging meeting for those interested in pediatric neuroradiology where we will learn, network, and inspire one another. Students and early-career radiologists will benefit from the ASPNR's strong focus on mentorship.

The Friday evening cocktail reception will be the perfect time to network in a fun, casual setting under the stars. The Saturday evening ASPNR Gala will be filled with camaraderie, music, and dancing by the water.

Our two simultaneous pre-meeting events will bring together neuroimagers in many stages of their careers. The crucial Core Curriculum will provide the basics of pediatric neuroradiology to a variety of learners. This year's hands-on Advanced Imaging Workshop will focus on ASL, DSC, and DCE perfusion- led by leading perfusion researchers and educators.

Visit [ASPNR.org](https://www.aspnr.org) for more details about the meeting and sponsorship application. There are a variety of levels of support available. Don't miss our Vendor Connect event—your opportunity to engage directly with attendees in a series of one-on-one meetings designed to spark meaningful connections. Our knowledgeable Director of Events, Zenia Spear, can help you choose or design the package that best suits your company's needs.

Please consider joining us and sharing the details of your products with enthusiastic radiologists and neuroscientists immersed in ASPNR's signature educational, upbeat, and warm environment.

It is with excited anticipation that I look forward to welcoming you to the beautiful city of Tampa in January!

Laura Hayes, MD, FAAP

About the ASPNR

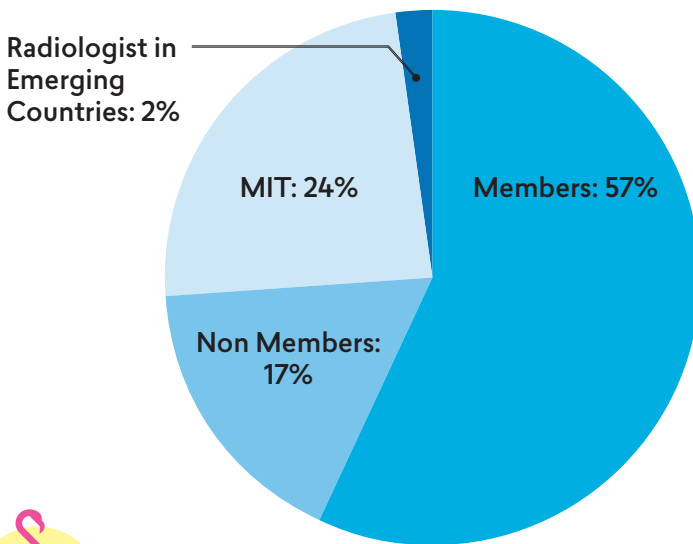

The ASPNR was founded in 1992 with the objective of developing, fostering, and supporting the care of pediatric patients undergoing neuroradiologic imaging examinations and procedures. The ASPNR aims to maintain the highest standard of practice, research and education in pediatric neuroradiology, which is an area of specialization in the broader field of neuroradiology. Members of the ASPNR enjoy a culture of close fellowship and collegiality that provides a platform for exchange of ideas and dissemination of knowledge between pediatric neuroradiologists and kindred pediatric and/or neuroscience physicians, and scientists. There are over 600 ASPNR members as of April 2025.

Workshop Sponsorship

ASPNR TOPIC FOCUSED WORKSHOPS

Small group events focused on a single or narrow group of topics relevant to pediatric neuroradiologists. These activities usually attract participants with a high level of interest or expertise in these areas. There is a modifiable structure which can include a relevant didactic presentation and or a demonstration of a relevant technology (software or device). A highly valuable group discussion often follows with valuable expert insight and opportunities for further connection and or collaboration. If interested, vendors may submit topic proposals for consideration and subsequent sponsorship if selected.

ADVANCED NEUROIMAGING WORKSHOP: \$12,000 & \$18,000

THURSDAY, JANUARY 15 | JW Marriott Tampa Water Street

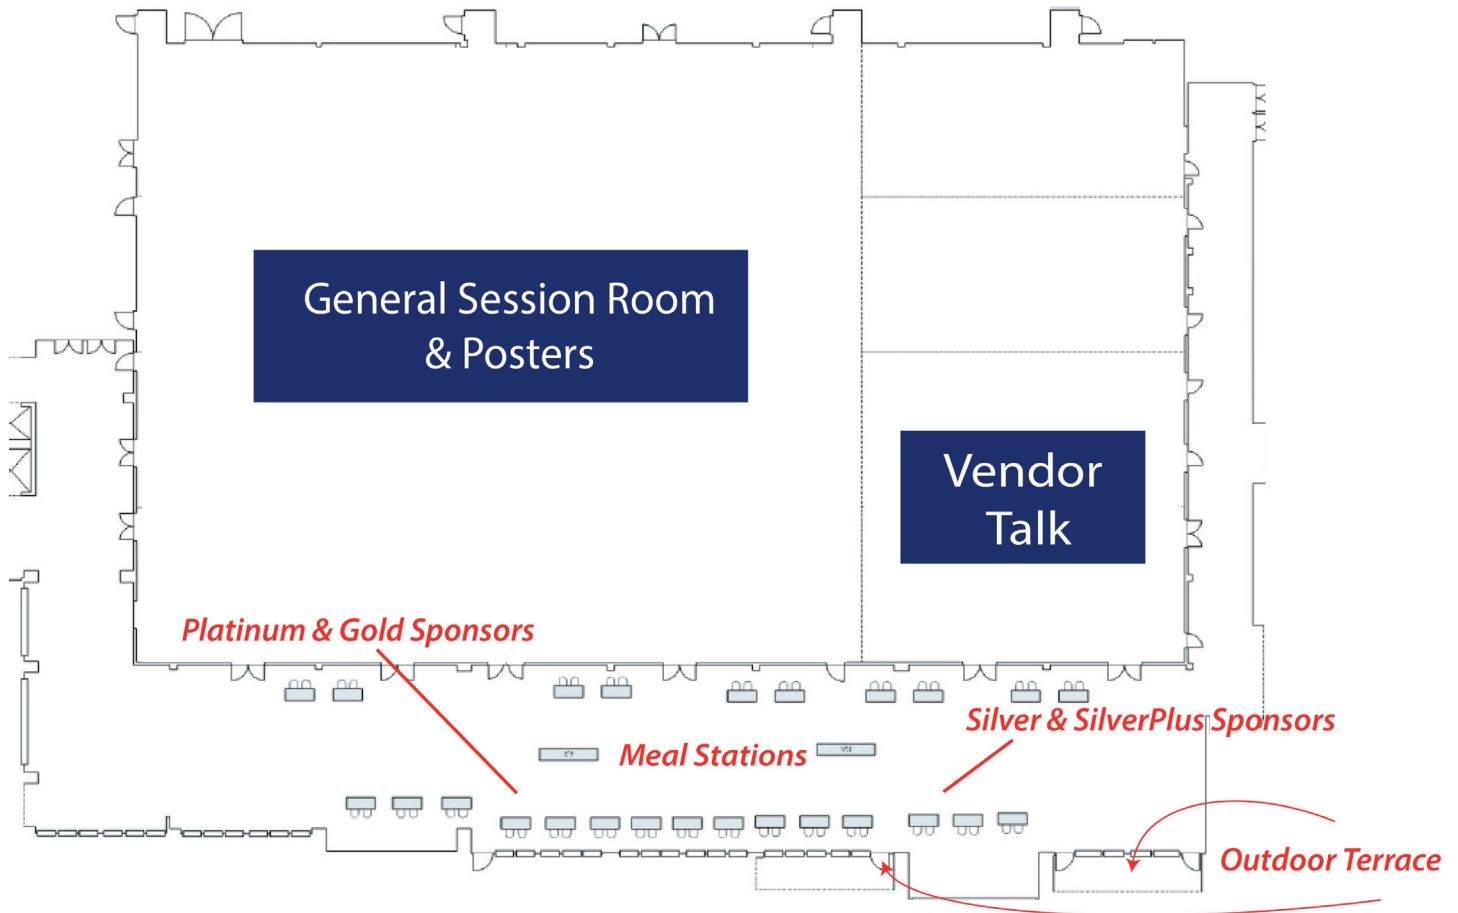

The Hands-on Advanced Neuroimaging Workshop will be held the day before the ASPNR's Annual Scientific Meeting on Thursday, January 15, 2026. This year's workshop will go beyond fMRI and offer training in ASL, DCE, and DSC perfusion techniques. The group of workshop registrants will start the day listening to relevant lectures and will then practice what they have learned with the Premier sponsor's post-processing program. After the sponsored Lunch & Learn, the Sapphire-level sponsors will have the opportunity to provide a hands-on demonstration of their software programs in rotating 30-minute small group sessions.
